Ongoing Research Support

R34MH114699 (Blashill & Wells) 08/10/2017-05/31/2020  
National Institutes of Health \$450,000/direct  
*Developing a Patient Navigation Intervention for PrEP Continuum of Care among Young Latino MSM*

The goals of this proposed study are to develop, pretest, produce, and pilot test a patient navigation intervention designed to address multiple components of the PrEP cascade among Latino MSM between the ages of 18 and 29.

Role: Multiple Principal Investigator

American Cancer Society (Blashill) 7/1/2017-6/30/2019  
American Cancer Society \$395,573/total  
*Skin Cancer Prevention among Sexual Minority Men*

The goals of this study are to identify motivations to intentionally tan among young sexual minority men, and to subsequently test prospective risk factors for tanning among this population.

Role: Co-Investigator

U54 MD012397 (Ayala & Wells) 9/11/2018 – 06/30/2023  
National Institute on Minority Health and Health Disparities \$19,884,795/total  
*SDSU HealthLINK Center for Transdisciplinary Health Disparities Research*

The goal of the SDSU HealthLINK Center for Transdisciplinary Health Disparities Research (Center) is to enhance capacity and improve infrastructure at SDSU and its partner organizations to advance minority health and health disparities research among racially/ethnically diverse, sexual and gender minority, and lower-income populations using a community-engaged transdisciplinary research approach.

Role: Multiple Principal Investigator

Pending Grants

(R01) (Reblin) 12/1/2018 – 11/30/2023  
NIH/NCI \$2,155,572/total

*A Stepped-care Psychosocial Intervention for Brain Tumor Family Caregivers*

The goal of this project is to conduct a randomized controlled trial to test the efficacy of a stepped-care intervention to reduce burden in family caregivers of patients with primary malignant brain tumor.

Role: Co-Investigator/SDSU Site Principal Investigator

NIH/NCI (Barnes, Wells, Gong) 1/1/2019-12/31/2022

*SCH: INT: Collaborative Research: Multiscale Modeling and Intervention for Improving Long-Term Medication Adherence in Context* \$407,899/total (at SDSU)

This project will capture the multi-dimensional complexities of medication adherence using mobile sensing technologies and using these sensed data to understand medication-taking behaviors, predict individual risk factors, and deliver interventions to improve adherence that are needed by the individual at the optimal time, place, and in the optimal context.

Role: Multiple Principal Investigator

Completed Research Support

1R21CA167418-01A1 (Wells & Barnes) 2012-2017 12% Effort

National Cancer Institute and Office of Research on Women's Health \$268,832 / direct

*Feasibility of Virtual Agent Cervical Cancer Education for Hispanic Farmworkers*

The objective of this grant is to develop a more efficient, consistent, and comprehensive method of delivering Spanish-language education about cervical cancer and human papillomavirus to augment a patient navigator intervention.

Role: Co-principal Investigator

1R21CA167418-01A1 (Wells & Barnes) 2013-2017 3% Effort/in kind

National Cancer Institute \$23,697/direct

*Feasibility of Virtual Agent Cervical Cancer Education for Hispanic Farmworkers*

This diversity supplement award to parent grant 1R21CA167418-01A1 allows Alexis Chaet to dedicate time to a focused project, develop research skills, and prepare for medical school.

Role: Co-Principal Investigator

1R21CA161077-01A1 (Wells) 2012-2017 13% Effort

National Cancer Institute \$263,588/ direct

*Developing and Piloting a Patient Navigation Program for Breast Cancer Survivors*

The goals of the study are to develop and pilot test a patient navigation program for underserved hormone receptor positive breast cancer survivors.

Role: Principal Investigator

U54CA132384-06A1 (Arredondo, Crowe, Martinez, Sussman) 2015-2016 10% effort  
*SDSU/UCSD Cancer Center Comprehensive Partnership* \$6,236,050/direct  
National Institutes of Health

The goal of this application is to develop outstanding programs in research, research education, and community outreach to understand and address causes for cancer health disparities in San Diego and Imperial counties.

Role: Outreach Core Co-Investigator and Project 2 Co-Investigator

University Grants Program (Wells) 2014-2015 in kind effort  
San Diego State University Grants Program \$9,995/direct  
*Experiences with Cervical Cancer Care Among Women Living with HIV in Surat, India*

The objectives of the project are to: 1) evaluate facilitating factors and barriers related to obtaining cervical cancer prevention, diagnostic, and treatment services among women living with HIV in Surat, India; and 2) create an intervention to improve adherence to cervical cancer screening, diagnostic, and treatment services among women living with HIV in Surat, India.

*Tampa Bay Community Cancer Network (TBCCN) (Research Supplement)*  
The goals of this research supplement are (1) to examine personal, environmental, and communication factors that impact cervical cancer prevention, screening, diagnostic, and treatment services among a rural, primarily Hispanic farmworker population; (2) to implement a cervical cancer patient navigation program serving a rural, primarily Hispanic farmworker population, and (3) To conduct process and outcomes evaluation of a cervical cancer patient navigator program serving a rural, primarily Hispanic population.  
Role: Co-Investigator (*Note: Dr. Kristen Wells was Project Leader*)

*Patient Navigator Program*  
This study will develop and test the effectiveness of a patient navigator program targeting disadvantaged populations in Hillsborough County, Florida who have abnormalities on cancer screening.  
Role: Co-Investigator

*Evaluating the Relationship between Stress, Depression, and Glycemic Control in Low-income Type 2 Diabetes Patients*  
This study examined the relationship between stress, depression, and glycemic control in low-income ethnically diverse type 2 diabetes patients recruited from two clinics that provide free health care.  
Role: Principal Investigator
