
Sharp HealthCare is offering an outstanding opportunity for a Clinical Psychologist to support the services of an innovative behavioral medicine program for patients in primary medical settings. This unique program promotes interdisciplinary collaboration in three key areas: evidence-based clinical care, research, and education.

- Clinical services include pre-surgical psychological candidacy assessments, psychological testing, psychological consultation within a liaison model of care, and ongoing inpatient and outpatient psychological treatment for patients receiving Heart Transplant and Mechanical Circulatory Support services.
- Through affiliation with Sharp's Outcomes Research Institute, the program facilitates research on health care practices to improve patient-centered health outcomes.
- The program contributes to the education of psychologists in training by providing supervised clinical and research experiences in Behavioral Medicine specialty settings.

Sharp HealthCare is a not-for-profit integrated regional health care delivery system located in San Diego. Sharp is the largest private employer in San Diego County with four acute-care hospitals, three specialty hospitals, three affiliated medical groups and a health plan.
