

POSITION OPENING – PAIN PSYCHOLOGIST

Johns Hopkins All Children's Hospital
Saint Petersburg, Florida

The Psychology Program at Johns Hopkins All Children's Hospital has an immediate opening for a Pediatric Pain Psychologist. Johns Hopkins All Children's Hospital is a tertiary care children's hospital serving the west coast of Florida. The Pain Psychologist will be responsible for clinical, research, and education/training endeavors. This individual will work closely with the multi-disciplinary pain team/clinic to provide optimal clinical care for youth experiencing chronic and/or acute pain conditions. Additionally, this individual will be engaging in outpatient psychotherapy and providing interdisciplinary care through consultation-liaison services for inpatients. Scholarly activities include active participation in current research and educational programming.

KEY ACCOUNTABILITIES:

1. This position is primarily clinical, with the provider being responsible for diagnosing and treating mental health conditions of patients referred to the Psychology outpatient clinic. Additionally, they will work collaboratively with other providers to complete evaluations and provide clinical care within the Pain clinic and on an inpatient basis.
2. Position will be responsible for participating in the supervision of psychology interns/trainees, and allowing observation by Pediatrics residents and other medical trainees to facilitate positive training experiences and broaden awareness and understanding of psychological factors related to/impacting health.
3. This position will have a small annual research requirement consisting of presentations and/or co-authorship on papers. Research opportunities across disciplines are available.

QUALIFICATIONS:

- Education – Doctoral degree from an APA-approved doctoral and internship program with an emphasis in clinical psychology, developmental psychology, school psychology, or counseling psychology; At least 1 year of post-doctoral experience with emphasis in pediatric psychology
- Relevant Experience – Must have experience working in a medical setting; Must have experience in assessing and working with youth ages 3-22 who have confirmed or suspected medical and/or psychological conditions; Experience in chronic pain is preferred
- Licensure/Certification – Must have a Florida Psychologist license or be license eligible
- Skills and Abilities – Proficiency in data entry and standard PC based applications required. Must be flexible and have good time management and communication skills.

To apply, please use the following link: <https://jobs.hopkinsmedicine.org/job>. Applications will be reviewed on a rolling basis until the position is filled. You are also welcome to send a CV and cover letter along to Dr. Katzenstein below, but must also apply via the website.
